Proposed Solution Template:

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Users often struggle to find relevant motivational or inspirational quotes based on their mood or situation. Existing platforms mostly provide random quotes rather than personalized recommendations.
2.	Idea / Solution description	Develop a **Quote Recommendation Chatbot using NLP** that analyzes user input (mood, keywords, or text) and recommends relevant quotes from a database through a chatbot interface.
3.	Novelty / Uniqueness	• Uses **NLP to understand user input and intent**. • Provides **personalized quote recommendations**. • Interactive **chatbot-based system** for quick access.
4.	Social Impact / Customer Satisfaction	• Promotes **motivation and positive thinking**. • Provides **quick access to inspirational content**. • Improves **user engagement through personalized responses**.
5.	Business Model (Revenue Model)	• Advertisements on the platform. • Premium version with **additional features or ad-free experience**.
6.	Scalability of the Solution	• Easily scalable by **adding more quotes and users**. • Can be deployed on **cloud platforms to support large traffic**.
